

Murray State College Allied Health Department

ON-LINE Job Opportunity Placement & Recruitment Center Information Sheet

The Allied Health Department which includes the Occupational Therapy Assistant (OTA) and Physical Therapist Assistant (PTA) programs at Murray State College is reopening an on-line job opportunity service for our students and graduates. Potential employers can submit a request to post information about their job openings for current students, as well as graduates, to help them as they make career decisions. Current students in the PTA program complete projects in the spring semester related to professionalism and preparation for employment using the companies who post on this jobs board.

The Job Placement & Recruitment Center is linked to the [MSC PTA home page](#) and the [MSC OTA home page](#) as well. Each program web page is the central log-in point for students accessing their on-line learning, and student links to program activities. This site attracts interested students, current students, and graduates. Current student's access information on the program home page on a regular basis and the page is linked to program [Facebook](#) pages with a former students group of over 100 graduates. Students and faculty appreciate the support that is shown by posting on this jobs opportunities board.

The cost for this service is minimal, and all proceeds go through the MSC Foundation – Allied Health Account to support the Allied Health programs for activities such as; student and faculty attendance at professional meetings, faculty continuing education, and to decrease costs for licensure exam prep costs for students.

Three month listing	\$ 60
Six month listing	\$100
One year listing	\$160

In addition to the listing of your job or company information, we welcome donations to support the program students and faculty. The MSC Foundation is a 501(c)(3) organization, and your donations are tax deductible. Donations of your level of support to the program can be identified in your listing, if you would like this included.
